

Replica

PM80

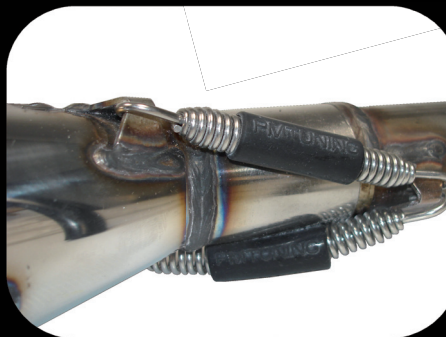

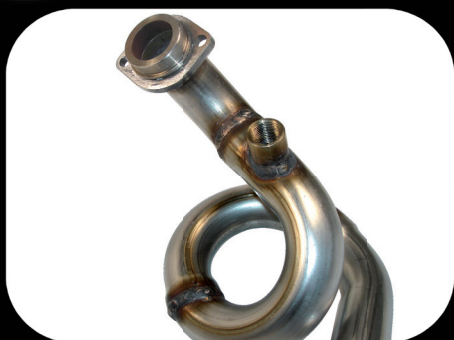

GTS 250/300

Originally conceived for the limited production Scomadi Turismo Leggera (TL250) Carbon Fibre Scooter Project; Now available to all GTS 250/300 owners due to popular demand.

Hand crafted from high-grade polished 304 stainless steel. Power characteristics are based on the tried and tested formula of the PM68 for GTS 250/300ie machines using a re-styled silencer chamber. Dyno developed using PM's technical know how and years of experience. Road tested for superior throttle response and linear power increase (1.8HP).

Hassle free fitting; No fuel injection/ECU mods or roller adjustments necessary just remove old system, fit and go. Fitting time under 40 minutes. Includes all necessary fitting hardware.

 **THE ART OF PERFORMANCE. HAND-CRAFTED IN THE UK.**

S.R.P £348.93 including delivery to UK mainland destinations.
